

Data Sheet 4540112

Product: SMARTDIM Try. Multiw. Plus ALU
EI-number: 4540112
Mat.no: EKO07275
EAN: 17020160727500
Packing: 5
Color: Aluminium

Product description: SmartDim multiwire push button dimmer for dimming LED, ohmic, inductive or capacitive loads. The dimmer is 1-pole.
Use of neutral wire is optional.
Minimum load 0W with neutral, 7W without neutral.
Maximum load to 200W.
Improved dimming performance.

It can also be controlled by using impulse switches to control the light from several places. On and off is operated by pressing the button, dimming up and down by holding down or up or down, respectively. There is a memory function for the last set light level when switched on. Easy setting of load type with automatic load detection and setting of min / max light level. SmartDim pressure dimmer has a communication module for Zigbee 3.0 and is part of the ELKO Smart system. This enables App control via the ELKO Smart App, as well as endless possibilities with automations and moods. The dimmer fits into standard wall boxes, or is mounted on the top wall in combination with a 33mm top wall cover. If the product is to be mounted in a multi-hole frame, the supplied single frame must be removed.
Delivered in RS16 and in all ELKO Plus variants.
